Moving day: Vans, trucks, U-hauls and station wagons lined the streets in the South-40 dormitory area as students, with help from parents and friends, moved in Aug. 24. Struggling with boxes, suitcases, trunks, duffel bags and milk cases, some 1,200 dorm residents unloaded their choice possessions from home. The residence halls stirred with excitement as roommates met each other for the first time and parents said goodbye.

Ozawa holds first endowed chair in social work

The first endowed chair in the 60-year history of the School of Social Work has been awarded to Martha N. Ozawa, professor of social work. The chair is named in honor of Bettie Bofinger Brown, wife of George Warren Brown, whose initial gift was responsible for founding the George Warren Brown School of Social Work at the University.

Ozawa came to WU in 1976 as professor of social work. She was associate professor of social work at Portland State University, Portland, Ore., from 1970 to 1976 and assistant professor from 1969 to 1970.

From 1972 to 1975, she was on leave as a research associate professor at New York University's Center for Studies in Income Maintenance Policy.

In announcing her appointment to the Bettie Bofinger Brown Chair, Shanti K. Khinduka, dean of the School of Social Work, remarked: "Professor Ozawa is a distinguished and widely respected scholar in the field of social welfare today. The quality, consistency and volume of her publications have won her international recognition as a leading authority on income maintenance and income security."

"As a frequent contributor to the major scholarly and research journals in social work and social welfare, she has elevated the level of social policy discourse among students of social security throughout the United States," Khinduka said. "The recognition by Washington University of Professor Ozawa's continuing scholarly contributions is an honor not only for her but for all her colleagues at the George Warren Brown School of Social Work."

Ozawa has a bachelor's degree in economics from Aoyama Gakuin University in Tokyo, a master's degree in social work and a doctorate in social welfare from the University of Wisconsin-Madison. She assumed the Bettie Bofinger Brown Professorship on July 1, 1985.

Martha N. Ozawa

Fall Assembly Series marks Twain's birth

The fall schedule of the WU Assembly Series features speakers from a broad range of disciplines, including government, science, literature, history and theology. The Assembly Series, now in its 26th year, offers free lectures to the WU and surrounding communities.

Harvard paleontologist Stephen Jay Gould opened the fall series with an Aug. 28 lecture titled "Individuals."

Congressman Howard Wolpe will deliver the Thomas C. Hennings Memorial Lecture at 2 p.m. Monday, Sept. 9. Congressman Wolpe, a Democrat from Michigan, is chairman of the House Subcommittee on Africa. His lecture is titled "South Africa: Time Has Run Out."

American poet John Ashbery will present a reading on Sept. 11. Ashbery is the author of *Self-Portrait in a Convex Mirror*, which won the literary "triple crown" in 1976, taking the Pulitzer Prize, the American Book Award and the National Book Critics Circle Award.

Jean Kirkpatrick, former U.S. ambassador to the United Nations, will speak at 3 p.m. Tuesday, Sept. 17.

The Fall Honors Lecture will be presented Sept. 18 by journalist Sydney Schanberg, whose coverage of the fall of Phnom Penh in Cambodia earned him a Pulitzer Prize for reporting at great risk. The movie "The Killing Fields" is based on Schanberg's experience in Cambodia. His talk is titled "Journalism in World Affairs."

Four speakers will take part in "Mark Twain: An American Call to Literature," a special program to mark the 150th anniversary of the

American humorist's birth. Calvin Trillin, author of *Uncivil Liberties*, will speak Oct. 2 on "Humor in America: Observing the (Harry) Golden Rule." At 4 p.m. Oct. 2, Harvard University professor of English Warner Berthoff will speak on "The People's Author: Attempting to Find Mr. Mark Twain." Berthoff will speak in the Ann Whitney Olin Women's Building Lounge.

Author Josef Skvorecky will present a reading and commentary at 4 p.m. Thursday, Oct. 3, in Steinberg Hall Auditorium. Skvorecky will read his short story parody of Twain's "Celebrated Jumping Frog of Calaveras County." Following Skvorecky, WU professor of English Wayne Fields will speak on "When the Fences Are Down: Language and Order in Huckleberry Finn."

Harvard University historian Bernard Bailyn will deliver the Oct. 9 Lewin Lecture, titled "History and the Creative Imagination." Bailyn is author of *The Ideological Origins of the American Revolution*.

Polish-born historian Richard Pipes will lecture at 4 p.m. Thursday, Oct. 10, on "Revolution and the Lawless Society: Russia in 1918." Pipes, an expert on U.S.-Soviet relations, is the author of *Survival Is Not Enough*.

Also on Oct. 10, Israeli journalist Meir Merhav will speak at 5 p.m. in Steinberg Hall Auditorium. Merhav, economic editor for the Jerusalem Post, will speak on "Israel and the PLO: Direct Negotiations?"

Frederick Mote, Princeton University professor of Chinese history, will deliver the Alice Hahn Goodman Lecture Oct. 16. Mote's talk is titled "Emotion and Art in Personal Com-

munication: A Literary Love Story from Ming China."

Samuel Florman, author of *The Existential Pleasures of Engineering*, will deliver the William C. Ferguson Lecture Oct. 23. His lecture is titled "The Existential Pleasures of Engineering — A Generation Later."

Roman Catholic theologian Hans Kung, author of *Does God Exist?*, will speak at 4 p.m. Oct. 23 on "Where is Christianity Going?"

Kung, who is controversial among Catholics, is an advocate of theological ecumenism between Protestants and Catholics.

On Monday, Oct. 28, novelist Toni Morrison will give a reading and commentary from her work. She is author of *Tar Baby* and *Song of Solomon*.

The Olin Conference Lecture will be given Oct. 30 by Sharry Langdale, researcher at the Harvard University Graduate School of Education. Langdale collaborated with Carol Gilligan on *In a Different Voice*, an exploration of women and moral development. The title of the conference is "Value Differences Between Men and Women: Two Moral Voices."

Theologian Harvey Cox, author of *Religion in the Secular City*, will give the Nov. 13 lecture. Cox is Victor S. Thomas professor of divinity at Harvard University.

Martin Feldstein, Reagan administration chairman of the Council of Economic Advisors from 1982 to 1984, will speak Dec. 4 on "The Future of Economic Policy."

All Assembly Series lectures, unless otherwise noted, are held at 11 a.m. Wednesdays in Graham Chapel.

'As You Like It'

Edison events: Elizabethan drama to avant-garde dance

In her first full season, Edison Theatre Director Anne Yard has assembled a variety of dance, theatre and musical events which show the new direction the theatre has taken. From Elizabethan drama to avant-garde dance, the 1985-86 season has appeal for all segments of the WU community.

And with half as many events on this year's bill, Yard says the theatre's emphasis is on offering quality, professional entertainment.

"Edison is one of only a few theatres in St. Louis presenting serious professional performing artists in a major series," Yard says. "So I think we're obliged to present only the best."

The season opens Oct. 5 with The Acting Company's "Orchards: A Chekhov Evening," a new adaptation of several of Anton Chekhov's short stories. The following evening, Oct. 6, The Acting Company will present William Shakespeare's "As You Like It." The Acting Company is the touring arm of the nation's John F. Kennedy Center.

Robert Small will return to the Edison stage Oct. 25-26 with The Small Dance Company to perform modern dance in the Murray Louis/Nikolais tradition. In 1984, Small appeared at Edison as guest soloist with the Jose Limon Dance Company.

The Fires of London, a chamber music/theatre ensemble, will perform Tuesday, Nov. 19, under the direction of composer Peter Maxwell Davies. The six members of the company will sing, play and dramatize Davies' "Le Jongleur de Notre Dame" and "Eight Songs for a Mad King."

The Guthrie Theatre will return to Edison Dec. 13 to perform Barbara Field's adaptation of Charles Dickens' classic "Great Expectations."

The St. Louis Repertory Dancers, under the direction of WU faculty member Annelise Mertz, will perform

Feb. 21-23. On Sunday, Feb. 23, the performance will be at 3 p.m.

Anna Russell will present her special blend of music and comedy March 1. She will poke fun at opera, music history and the cultural elite as she continues her farewell tour.

Sandra Reaves-Phillips will bring "The Late Great Ladies of Blues and Jazz," to life on the Edison stage April 18. Reaves-Phillips pays tribute to blues and jazz greats like Bessie Smith and Billie Holiday in a show critics have called "phenomenal." The show replaces "A Kurt Weill Cabaret" in the Edison subscription series which has been cancelled due to the serious illness of one of the performers.

The Lucinda Childs Dance Company will finish the season April 25-26 with a St. Louis premiere.

The Edison subscription rate offers all eight performances for \$70 to the general public, or \$52 to WU faculty and staff. The student subscription rate is \$40. The subscription rate for seven of the eight events is \$65 to the general public; \$46 to WU faculty and staff; and \$36 to students. Single tickets also can be purchased through the box office.

Other events in Edison Theatre include WU Performing Arts Area productions of Oscar Wilde's "Salome," and Henrik Ibsen's "A Doll's House." "Salome," directed by Herbert Metz, will be presented Nov. 8-9 and 15-16. "A Doll's House," directed by Joseph Roach, will be March 28-29 and April 4-5.

Performing Arts Area productions are \$5 to the general public and \$4 to WU faculty, staff and students. An additional discount on PAA events is available for subscribers to Edison's regular series. All performances begin at 8 p.m. unless otherwise noted.

For more information or to reserve tickets, call the box office at 889-6543.

While you were gone

Major developments that occurred at the University this summer range from announcements that St. Jude Children's Research Hospital in Memphis, Tenn., may move its research operations to the WU Medical Center, to news that Sen. Thomas F. Eagleton will become University Professor of Public Affairs here at the conclusion of his third term in the U.S. Senate.

St. Jude, St. Louis Children's Hospital and the WU School of Medicine have begun exploratory discussions regarding the possible move of St. Jude's research operations to St. Louis. If the move occurs, St. Jude's research faculty would be close to the facilities, faculty and research programs of the School of Medicine and of Barnes, Children's and Jewish hospitals.

The Committee to Establish the Thomas F. Eagleton Endowment Fund has unveiled plans to create the endowed professorship. Eagleton said last year that he would not seek reelection in 1986 when he completes his third term in Congress.

In other news:

- James R. Buchholz has been appointed vice chancellor for administration and finance at WU. He had served as chief administrative officer of the multicampus University of Missouri system since 1977.

- Peter H. Raven, Engelmann Professor of Botany at WU and director of the Missouri Botanical (Shaw's) Garden, has been awarded a \$240,000 fellowship for five years of personal research.

- William R. Stuckenberg of St. Louis has endowed the Stuckenberg Chair of Human Values and Moral Development in the Department of Psychology. Jane Loevinger, professor of psychology, has been named to the Stuckenberg chair.

- Viktor Hamburger, Ph.D., and Rita Levi-Montalcini, M.D., two eminent WU scientists, have been selected to receive the 1985 Ralph W. Gerard Prize from the Society for Neuroscience. They will receive the

prestigious award jointly at the society's annual meeting in Dallas this fall.

- Marine geologist Rodey Batiza, an associate professor in the Department of Earth and Planetary Sciences, has accepted a one-year appointment as assistant program director for the Submarine Geology and Geophysics Program in the oceanography division of the National Science Foundation in Washington, D.C. He will return to his post at WU in August 1986.

- Two distinguished faculty of the School of Business, Jess Yawitz and William J. Marshall, have joined Goldman, Sachs & Co. in New York as vice presidents. They have been granted a leave of absence for the 1985-86 academic year to become associated with Goldman Sachs, one of the leading investment firms in the world.

- Paul Lacy, M.D., Ph.D., Robert L. Kroc Professor of Pathology at WU, and David Scharp, M.D., associate professor of surgery, reported at the American Diabetes Association's 45th Annual Scientific Sessions that clusters of insulin-generating cells, called islets, transplanted from cadaver pancreases to diabetes patients, temporarily produced detectable levels of insulin in three of the six patients treated. A seventh patient received a transplant of cells harvested from her own pancreas. Scharp performed the operations at Barnes Hospital.

- Michael M. McCarthy, chairman and chief executive officer of McCarthy Construction Co., St. Louis, and Kenneth Prewitt, president of the Social Science Research Council, New York City, have been elected to the WU Board of Trustees.

- Carl M. Bender, WU professor of physics, and John W. Bowyer Jr., professor of finance, have received awards from the Burlington Northern Foundation in Seattle, Wash., "in recognition of outstanding teaching and exemplary contributions on behalf of undergraduate education."

Congress' harsh critic of apartheid lectures Sept. 9

Rep. Howard Wolpe, D-Mich., will deliver the 1985 Thomas C. Hennings Memorial Lecture at 2 p.m. Monday, Sept. 9, in Graham Chapel. Wolpe is chairman of the House Subcommittee on Africa.

The title of Wolpe's lecture is "South Africa: Time Has Run Out."

Wolpe is a harsh critic of the apartheid policy of South Africa and has been a leader in congressional efforts to limit U.S. investment in that nation. He supports more aid rather than free enterprise to foster economic growth in Africa. He has fought to limit U.S. military aid to Zaire, the Sudan, Kenya, Angola and other African nations.

The Hennings lecture was named in honor of the late U.S. senator from Missouri, Thomas C. Hennings. An alumnus of WU's School of Law, Hennings served in the Senate from 1951 until his death in 1960.

All Assembly Series lectures are free and open to the public.

The three-hour cruise on the Mississippi River gave incoming WU freshmen and transfer students from all parts of the United States and many countries ample time to get to know one another. For many of the students, the trip was their first encounter with the "Mighty Mississippi." Jenny Wang, a freshman from Costa Rica, said the cruise on The President was a good idea and will "definitely" be on her list of things to write home about.

Chancellor William H. Danforth points out landmarks along the river shore to freshmen Sandy Fullerton and Mark Petheram, both from Clinton, Iowa.

Mississippi Mingle

A three-hour evening cruise Aug. 26 on the Mississippi riverboat The President gave more than 1,100 WU freshmen and transfer students an opportunity to view the St. Louis skyline from the Mississippi while getting acquainted with each other and with University officials.

Students met Chancellor and Mrs. William H. Danforth on the top level of the boat and danced to the music of the Bob Kuban Dance Band below.

Faith Maddy, WU orientation director, says she hopes the cruise will become an annual event. "The response has been terrific," she said.

The riverboat excursion was designed to integrate WU students into the metropolitan community. The week-long orientation program also included an address Aug. 24 by St. Louis Mayor Vincent C. Schoemehl, who welcomed new students and their parents to St. Louis.

The four-level boat provided ample room for new students to take photographs to send home to mom and dad, dance to the music of the Bob Kuban Dance Band or relax outside and observe St. Louis landmarks. Comments heard during the cruise: "The Arch is cool."; "It's easy to meet people."; "The band is great."; and "Which one is the chancellor?"

MEDICAL RECORD

Stephanie Talton, a senior at Hazelwood East Senior High School, worked in the lab of Sherida Tollefsen, M.D., assistant professor of pediatrics, as part of the Minority High School Student Research Apprenticeship Program. Loading protein samples onto a gel filtration column was just one of her summer tasks.

Medical mentoring

Minority high schoolers spend summer with biomedical researchers

When Stephanie Talton returns to high school this month from her summer vacation, she'll be a little richer and a lot wiser.

Stephanie, a 17-year-old senior at Hazelwood East Senior High School who plans a career in medicine, spent eight weeks working in a laboratory at WU School of Medicine as part of the Minority High School Student Research Apprenticeship Program. The nationwide program, sponsored and partially funded by the National Institutes of Health, is designed to involve minority high school students in biomedical research.

This summer, which marked the fifth year of the program at the School of Medicine, almost 400 students applied for 11 available slots.

Stephanie and 10 other St. Louis area students worked in separate laboratories, earning minimum wage for a 37.5-hour work week. "We encourage the students to look at health and science as a career," says Robert Lee, Ph.D., assistant dean for minority student affairs. "And we encourage them to get all the education they can. It's a working and learning experience."

School of Medicine administrators recruit the students by contacting administrators at about 75 St. Louis area schools. Students who are recommended must be interviewed by a nine-member School of Medicine admissions committee. If they are accepted, they are assigned to a program advisor, or "mentor," within each department, with additional

supervision by a medical student and a laboratory assistant or medical resident.

This year, the mentors were faculty members in cardiovascular surgery, microbiology and immunology, genetics, internal medicine, psychiatry, anatomy and neurobiology, general surgery, obstetrics and gynecology and pediatrics. One student worked in the biomedical computer lab. The program has been so well received by faculty members in past years that some students have been invited to work part-time during the school year.

During the eight-week session, the students perform a variety of tasks, all related to scientific investigation. In addition, they are required to take an anatomy/physiology course and write a research paper. The student with the highest academic score is often invited to assist with the program the following year.

Stephanie, who had never been inside a laboratory before, received the highest academic score this year and says the overall experience was a good one for her. "During the first week it took me awhile to get the hang of it and to get the big picture," she says. "But it taught me self discipline and independence. I had to know what I was doing. And I would do it again."

For information about next year's program, call Rosalind P. Denison, Ph.D., program coordinator, at (314) 362-3633.

Flye, Hanto join surgical faculty and organ transplantation program

M. Wayne Flye, M.D., Ph.D., has joined the surgical faculty at the WU School of Medicine as professor of surgery and director of the organ transplantation program.

Flye comes to St. Louis from the Yale University-New Haven Medical Center, where he has been professor of surgery and director of the division of organ transplantation and immunobiology. He was also acting director of general surgery at Yale.

Flye's primary area of interest is in liver transplantation. He recently performed the first liver transplant at Barnes Hospital, a sponsoring institution of the WU Medical Center.

Flye received his medical degree from the University of North Carolina School of Medicine, and master's and doctoral degrees in immunology from Duke University in Durham, N.C. His experience includes two years as a staff surgeon with the organ transplant unit at the Walter Reed Army Medical Center in Washington, D.C., and two years as a senior investigator and chief of the thoracic surgical service at the National Institutes of Health (NIH). He was chief of the vascular surgery service at the University of Texas Medical Branch in Galveston from 1979-83, when he joined the faculty at Yale.

Douglas W. Hanto, M.D.

Flye is a consultant to the National Cancer Institute at the NIH and a fellow of the American College of Surgeons. He is also a member of many national and international professional societies, including the American College of Cardiology and the Society of University Surgeons. He has written more than 100 research articles.

This month, Douglas W. Hanto, M.D., will join the University faculty, also as a member of the organ transplantation group. He currently is a fellow in transplantation surgery in the Department of Surgery at the University of Minnesota Health Sciences Center.

Hanto received his undergraduate degree in chemistry from St. Olaf College and his medical degree from the University of Arizona College of Medicine. He served his internship and residency in general surgery at the University of Minnesota Health Sciences Center.

M. Wayne Flye, M.D., Ph.D.

St. Clair student wins occupational therapy fellowship

St. Clair student Cathy Puzzo has won the first Occupational Therapy Merit Fellowship at WU School of Medicine.

Puzzo will receive a full-tuition scholarship from the Program in Occupational Therapy as recognition for superior academic and extracurricular achievement. Puzzo attended Baylor University, where she was a member of Gamma Beta Phi and Alpha Lambda Delta honor societies. This summer she was employed as an aide at the Irene Walter Johnson Rehabilitation Institute at WU Medical Center.

Occupational therapy is an applied science that teaches skills for everyday living to people who have been affected by a physical or emotional disability. WU's Program in Occupational Therapy, which grants the bachelor of science degree to its graduates, is one of the five oldest programs in the country. Mary Ann Boyle, Ph.D., is assistant professor and Elias Michael Director of the program.

Edison Theatre opens box office at medical school

Edison Theatre's 1985-86 season of professional drama, dance and music events is now more accessible to faculty, staff and students on the medical school campus.

During the 1985-86 theatre season, Edison will operate a box office at the medical school two days a week. The box office will be open in the first floor lobby of the McDonnell Medical Sciences Building from noon to 2 p.m. Tuesdays and Thursdays throughout the theatre season.

The medical school box office will sell both subscription and single tickets. All payments must be made by cash. Patrons will be issued a voucher for specific tickets which can be picked up at the box office the night of the performance.

For more information on the 1985-86 Edison season, see story on page 2.

Evens named president of Children's Hospital

Ronald G. Evens, M.D., has been named president and chief executive officer of St. Louis Children's Hospital. Announcement of the appointment was made by Andrew E. Newman, chairman of the Board of Trustees of Children's Hospital.

Since 1971, Evens has served as the Elizabeth E. Mallinckrodt Professor and head of the Department and director of the Mallinckrodt Institute of Radiology at WU School of Medicine. He will continue to hold these positions.

Evens received his bachelor's degree in economics in 1960 and his medical degree in 1964 from WU. Graduating first in his medical school class, he served his internship in medicine at Barnes Hospital and was chief resident at the Mallinckrodt Institute of Radiology. He later won a fellowship from the Picker Foundation and the National Academy of Sciences, enabling him to attend the graduate schools of business administration and education at WU.

He has served as president of the Society of Chairmen of Academic Radiology Departments, the Missouri Radiological Society, and as a member of many committees for the American Medical Association, the National Academy of Sciences, and the National Institutes of Health. Evens was the first Missourian to head the medical radiation advisory committee of the U.S. Food and Drug Administration's Bureau of Radiological Health. He also serves on the editorial staffs of four radiological journals.

In 1984, Evens was given the Dis-

tinguished Eagle Scout Award from the National Council, Boy Scouts of America. He is currently a director or trustee of Boatman's Bank in St. Louis, Health Care Network, the Society of Nuclear Medicine, the American Roentgen Ray Society, and WU Medical Center.

Evens has served as a consultant to industry, medical centers, universities, and governmental organizations including the National Institutes of Health, the states of New York and California, Congress and the province of Ontario, Canada.

Runners and non-runners sought for study

Both runners and non-runners are needed to participate in a research project being conducted by the Program in Physical Therapy at WU.

Testing will take approximately one and a half hours and will involve non-invasive measurements of muscle strength, flexibility and postural alignment.

To be eligible, volunteers must either: 1) run 40 or more miles per week, with consistent training for the past six months, or 2) run less than five miles per week (or not at all) and have no previous history of knee injury.

Excluded are athletes who are training in other sports. Participation is voluntary. If interested, call Kathy Johnstone or Julie McClure at 362-2407 after 12:30 p.m.

Chu appointed director of pediatric ophthalmology and eye care center

Fred C. Chu, M.D., has been named director of pediatric ophthalmology at WU School of Medicine.

Chu heads the Children's Eye Care Center, where he is responsible for examining and treating children with visual disorders and "crossed" eyes. He is an assistant professor of ophthalmology and of ophthalmology in pediatrics at the School of Medicine. The Children's Eye Care Center is located in Children's Hospital, a sponsoring institution of the WU Medical Center.

Chu's research interests are in pediatric ophthalmology, ophthalmic genetics, clinical neuro-ophthalmology, eye movement disorders and ophthalmic pathology. He is particularly interested in the application of computers to the study of eye movement disorders.

He came to the WU Medical Center after serving seven years as a senior staff fellow at the National Eye Institute in Bethesda, Md. Previously, he worked in experimental cytology at the National Institutes of Health, and in experimental computer programming at the Brain Research Institute of the University of California-Los Angeles.

Chu received his medical degree from Cornell University in 1971, then served an internship at San Francisco General Hospital and an ophthalmology residency at Georgetown University Hospital. He has

Fred C. Chu, M.D.

served fellowships at the National Eye Institute in Bethesda, Md., Johns Hopkins' Wilmer Eye Institute in Baltimore and Children's Hospital in Washington, D.C.

He has served as a consultant and course instructor on neuro-ophthalmology to the military and at many universities and medical centers, and as a lecturer at professional symposia. Chu has written numerous abstracts and papers on neuro-ophthalmology, eye movement disorders and pediatric ophthalmology.

Medical imaging specialist to deliver Wendell G. Scott Memorial Lecture

Michael Paul Capp, M.D., will deliver the 14th Annual Wendell G. Scott Memorial Lecture on Monday, Sept. 16, at Mallinckrodt Institute of Radiology, WU Medical Center. The lecture, titled "The Electronic Revolution and Medical Imaging," will begin at 5:30 p.m. in Mallinckrodt's Scarpellino Auditorium, located at 510 S. Kingshighway Blvd.

Capp is a professor and chairman of the Department of Radiology at the University of Arizona College of Medicine in Tucson. The first appointed to that position (in 1970), he has developed one of the country's most modern academic centers of radiology.

Capp will discuss the development of new technology for medical imaging, particularly the clinical utility of photoelectronic and digital radiology. Capp has been honored with seven other lectureships, including the First Sanford George Bluestein Lecture at Yale University, the 50th Anniversary Lecture for the American Board of Radiology, the Finzi Lecture at the Royal Society of Medicine in London, and the Annual Oration for the Canadian Association of Radiologists in Quebec.

He received his medical degree from the University of North Caro-

Michael Paul Capp, M.D.

lina in 1958 and completed a pediatric internship and a three-year residency in radiology at Duke University. Before assuming his present position at the University of Arizona, he was director of pediatric radiology and radiologist-in-charge of pediatric cardiology at the Duke University Medical Center for eight years.

Faculty receives more funding for heart disease research

WU has received funding from the National Heart, Lung and Blood Institute to establish the nation's first National Research and Demonstration Center (NRDC) in ischemic heart disease. The local center teams cardiology researchers from the School of Medicine with investigators from the behavioral sciences in several University colleges and schools to compare conventional programs for combating heart disease with social, educational and behavioral approaches that may improve patient compliance.

Investigators within the NRDC will study heart disease, with the goal of lowering risk, in three projects: one to increase medication use by recovered heart attack victims; one to encourage early treatment of incipient heart attack; and one to examine worker-implemented programs for lowering the risk of heart attack.

For the medication study, researchers will compare effectiveness of one-on-one counseling for recovered heart attack victims with that of educational videotapes for patients, their spouses and families. Results with each method will be measured objectively to detect improvements in medication usage it brings.

The early treatment program will be conducted through the Medical Care Group, and is designed to examine ways to speed responses of people potentially at risk of heart attack, and also to improve the response of medical care systems. Traditional patient education techniques will be used with one group, while another group will learn through practice drills and other behavioral interventions.

In the work-site study, a standard, pre-packaged educational program will be tested for effectiveness

in comparison with a broad-based plan that workers help to develop and implement. The medical objective is to reduce the risk of heart attack through both behavioral and biological changes, for example by lowering cholesterol intake and stopping smoking.

Burton E. Sobel, M.D., professor of medicine and director of the cardiovascular division, is the principal investigator of WU's NRDC. NRDC leaders include Edwin B. Fisher, Ph.D., associate professor of psychology, directing psychological research; Gustav Schonfeld, M.D., professor and acting head of the preventive medicine department, supervising the NRDC biochemical laboratory; and Kenneth B. Schechtman, Ph.D., instructor in preventive medicine, responsible for biostatistics.

The government is supporting NRDCs only at institutions already designated as Specialized Centers of Research (SCORs).

Smoke alarms on sale Sept. 9

The Barnes Hospital Burn Patient Support Group will be selling smoke alarms Sept. 9 in the West Pavilion ground floor lobby. The sale will begin at 10 a.m. and last until all alarms are sold. The alarms cost \$6.50 each.

"The sale is sponsored by our 'Alarms for Life' program," said Sara Schmeer, burn unit social worker. "With the heating season just around the corner, there's an increased risk of house fires. Our burn victims and their families provide the alarms as a preventive measure so that others might be spared the suffering they've endured."

NOTABLES

Charles D. Churchwell, dean of Library Services, will testify before the House Post-Secondary Education Subcommittee to urge reauthorization of the Higher Education Act. Churchwell is testifying on behalf of the Association of Research Libraries.

Rebecca German, assistant professor of anatomy at the School of Dental Medicine, received a three-year, \$105,000 New Investigator Award from the National Institute for Dental Research for her research on the coordination of the jaws, tongue, hyoid bone, and muscles of mastication in feeding behavior. **Philip A. Osdoby**, also an assistant professor of anatomy at the dental school, received two grants: a five-year Research Career Development Award for \$225,000 from the National Institutes of Health for his study of "Osteoclast Development and Musculoskeletal Diseases"; and a three-year, \$250,000 grant from the National Institute for Dental Research for research on "The Cellular Basis of Cranio-Facial Bone Disorders."

Kurt H. Hohenemser, professor emeritus of aerospace engineering, has been awarded the 1985 Spirit of St. Louis Medal "for contributions spanning the past 50 years, as one of the world's leading contributors to helicopter development through the formulation and testing of many innovative concepts." The Spirit of St. Louis Medal was established by the American Society of Mechanical Engineers in 1929 to honor individuals for outstanding service in aeronautics and astronautics. Since the first award to Daniel Guggenheim, 32 medals have been awarded. Hohenemser will receive his medal at the American Society of Mechanical Engineers' winter annual meeting, to be held in November in Miami Beach.

Lucian Krukowski, professor of philosophy, exhibited his paintings and drawings in May at Long Island University in New York City. He also presented a lecture on "The City as Metaphor" as part of the Metropolitan Museum of Art program titled "The Artist Celebrates New York."

Hyman P. Minsky, professor of economics, participated in a "Conference on Sraffa's Production of Commodities by Means of Commodities After 25 Years" Aug. 24-27 in Florence, Italy. After the conference, he delivered a set of lectures at the Centro di Studi Economici Avanzati in Trieste, Italy.

David J. Pittman, chairman and professor of sociology, chaired a session on "Alcohol and Drug Use and Abuse" at the Midwest Sociological Association Annual Meetings, held at the Chase-Park Plaza Hotel. **Murray L. Wax**, professor of sociology, delivered two papers at the meeting and chaired the session on "Sociology and Ethics." The papers he presented are titled "A Social Scientist Examines Ethical Theories" and "The Enlightenment Critique of Religion." **Linda Lindsey**, visiting assistant professor, chaired the meeting's round table discussion on "Gender Differences and Undergraduate Professional Education." She

also presented a paper, titled "Health Care in India: A Functionalists Perspective," during the session on developing countries.

Patricia K. Shehan, assistant professor of music, presented a two-week series of lectures on world music at Elmhurst College in Chicago and at the University of Denver. During the Japan Festival at the Missouri Botanical Garden in June, she performed traditional Japanese music on the 13-string koto. She is a joint recipient of a National Endowment for the Humanities grant, which will document the resettlement of the Lao refugees and their preservation of traditional Lao culture.

Louis M. Smith, professor of education, presented one of the plenary addresses, titled "Building Understandings of Instruction," at the Ohio State University Conference. He spoke on "A History of a School: On Understanding the Classroom in the School Context," based on his "Kensington Revisited" project.

Virginia V. Weldon, M.D., deputy vice chancellor for medical affairs, has been elected to the board of directors of Southwestern Bell Corporation. She was recognized for her experience in medical education, biomedical research and health care legislation.

Have you done something noteworthy?

Have you: Presented a paper? Won an award? Been named to a committee or elected an officer of a professional organization? The *Washington University Record* will help spread the good news. Contributions regarding faculty and staff scholarly or professional activities are gladly accepted and encouraged. Send a brief note with your name, position, department and activity to Notables, Campus Box 1142. Please include a phone number where you can be reached.

Sullivan appointed associate dean of law school

E. Thomas Sullivan, professor of law at WU, has been appointed associate dean of the School of Law.

Sullivan, who came to WU in 1984, formerly was a professor at the University of Missouri School of Law. He has served two visiting professorships at Georgetown University Law Center.

Sullivan began his law career in 1973 as a law clerk to a federal judge. Thereafter, he served as a trial lawyer with the U.S. Department of Justice and as a senior associate with the Washington, D.C., law office of Donovan, Leisure, Newton & Levine. He has served as a consultant to the Missouri Attorney General and the Missouri Department of Securities. Sullivan is a member of the American Law Institute.

He received his bachelor's degree from Drake University in 1970 and graduated magna cum laude from Indiana University School of Law in 1973.

Reorganization of university relations results in new appointments

Mark W. Bates has been appointed assistant vice chancellor and director of special development programs in the Office of University Relations. A reorganization of the university relations staff also has resulted in the promotions of David T. Blasingame to assistant vice chancellor and director of schools alumni and development programs and M. Fredric Volkmann to associate vice chancellor and director of public relations.

The three appointments, effective Sept. 3, were announced by Herbert F. Hitzeman Jr., senior vice chancellor for university relations.

Bates will be responsible for major gifts, corporations, foundations and planned giving. With nearly 27 years of institutional advancement experience in Chicago, he most recently was vice president for institutional advancement at the College of St. Francis, Joliet, Ill. Prior to that appointment, he was vice president of C.W. Shaver & Company Inc., a development consulting firm, whose clients included the Chicago Symphony Orchestra. He also has served as vice president and executive secretary to the board of trustees at Illinois Institute of Technology and executive vice president of the American Fund for Dental Health.

Bates is a director of the Simon Foundation, a trustee of the Union League Boys Clubs, a director of the Private Security Institute and a governing member of Illinois Technical College. His memberships include the Chicago Press Club, Economic Club of Chicago, Union League Club of Chicago, Michigan Shores Club and National Society of Fundraising Executives. He is past president of Chicago Society Fund Raising Executives. His bachelor's degree, in journalism, is from Northwestern University.

Blasingame joined the WU staff in alumni and development programs in 1974. He served as development director for the School of Business

until his promotion to executive director of the schools development programs in May 1985. In addition to the schools development programs, he will be responsible for the University's alumni programs and the William Greenleaf Eliot Society, an organization of friends and alumni who provide financial support to the University.

He earned a bachelor's degree in 1969 and a master's in business administration in 1971, both from WU.

Volkmann has been director of public relations since he came to the University in 1980. Given the additional title of assistant vice chancellor in May 1985, he continues to oversee the management of the public relations efforts for both campuses of the University.

He earned his bachelor's degree in 1966 from Iowa Wesleyan College, Mount Pleasant, Iowa, and is immediate past chair of the board of trustees for the Council for the Advancement and Support of Education (CASE), the leading organization for the advancement of education in America.

Mark W. Bates

View of how the West was won

Historian Kenneth Libo will offer WU's new students an unusual look at the way the West was won at 11:30 a.m. Sunday, Sept. 8, at the Gateway Arch. Libo's presentation, "Jewish Settlers and the American West," recreates the lives of Jewish cowboys, gamblers, sheriffs and other pioneers through three centuries of westward exploration.

The program, which is free and open to the public, is co-sponsored by WU's Residential Life Center, the B'nai B'rith Hillel Foundation of St. Louis and the National Parks Service.

Libo's presentation is based on his book, *We Lived There Too*, a documentary history of Jewish participation in America's westward expansion, which he co-authored with Irving Howe. Using photographs, letters, diaries and newspapers, Libo will help to dispel misconceptions that early Jewish settlers stopped in the large cities of the Eastern seaboard.

Transportation to the Arch will leave at 10:30 a.m. from Wohl Center. The program is one of several orientation activities sponsored

by the B'nai B'rith Hillel Foundation of St. Louis. For more information, call Hillel at 726-6177.

Women's Society shows international students St. Louis

The Women's Society of WU is sponsoring a bus tour of the city for international students new to the campus. The tour group will depart at 12:15 p.m. Saturday, Sept. 7, from Stix International House, 6470 Forsyth Blvd.

During the three-hour tour, students will view the Central West End, downtown, Laclede's Landing, Soulard district, Tower Grove section and Forest Park. The bus will stop at Laclede's Landing and Soulard for a closer look at the attractions.

A reception will be hosted at Stix House following the tour, which is an annual event. For more information, call the WU International Office at 889-5910.

SPORTS

Increased 'inventory'

Returning veterans key to '85 football season

When WU football coach Fred Remmy was named the Bears' head mentor in spring 1983, his first task was to meet with returning players and check his "inventory." He was a little surprised to find out what he had "in stock."

"We had 14 team members show up and two of them were managers," said Remmy. "Needless to say, we had our work cut out for us."

Remmy's plans have proceeded on schedule and now, two and one-half years later, 85 football players are enrolled at WU for the 1985 season. More than 45 of the 80-plus players are returning veterans. Offensively and defensively, nine and eight starters return from each unit, respectively.

After settling for a 4-5 record in 1984, the Bears will be looking for their first winning season since 1978. WU suffered three close defeats last year and came within seven points of a possible 7-2 season.

"Close defeats are part of the game and part of the learning process when working with a team that is comprised of just two seniors and eight juniors," Remmy said. "The fact that we have seven seniors and 17 juniors returning this season will make us a better team in 1985."

Returning for his third straight season is senior quarterback Steve Sides, Roswell, N.M. Last year, Sides completed 51.6 percent of his passes for 1,329 yards and 13 touchdowns. His passing efficiency rating of 123.6 placed him among the Division III leaders in 1984.

Sides is fourth in career total offense at WU with 2,597 yards and could become the Bears' all-time leader in that category if he avoids injuries.

Offensive weapons Tom Polacek, running back from Ada, Okla., and Todd Bowman, tight end from Shawnee Mission, Kan., will try to improve their 1984 team-leading statistics. A freshman last fall, Polacek gained 697 yards at the tailback position and averaged 5.1 yards per carry. Switching from quarterback to tight end last year, Bowman garnered 29 receptions for 418 yards and five touchdowns.

Sophomore Wes Hilliard, Siloam Springs, Ark., is a threat, too, at the receiver position. Tabbed as the Bears' quickest player, he caught 16 passes for 272 yards last season. Against Principia, Hilliard ran for two touchdowns and caught one.

WU will anchor its 1985 defense with junior defensive end, Peter Martens, New Ulm, Minn., and senior lineman, Ted Lucas, St. Louis. Martens recorded 46 tackles and four pass sacks in '84, while Lucas added 45 tackles and three fumble recoveries.

Remmy expects his defensive secondary to be the one unit with the most depth. The four starting positions in the defensive backfield are "up for grabs" with eight veterans returning.

"My assistant coaches and I feel that we have an outstanding defensive secondary," Remmy said. "Last year's statistics didn't indicate that our pass defense was anything to write home about, but when we reviewed the season, we noticed our defense was asked to stop the opponent several times when we had poor field position."

According to Remmy, the less-noticed items of a football game will help determine whether or not the Bears have a winning season in 1985.

Todd Bowman, the Bears' leading receiver last year, grabs one of his five 1984 touchdown passes.

"Intangibles, special teams play, field position and turnovers are all keys to the season," he said.

"The biggest change since I began coaching at Washington University is the players' attitude. When they take the field, they know that they can win the football game."

Compared to his reaction of two and one-half years ago, when 14 players showed up for the initial team meeting, Remmy has pleasant thoughts now of having an "inventory" of more than 80 players. WU and fans hope the increase parallels a rise in winning.

1985 FOOTBALL SCHEDULE

DATE	OPPONENT	TIME	SITE
Sat., Sept. 14	UNIVERSITY OF CHICAGO	7:00 p.m.	HOME

HC—Homecoming

Soccer Bears' goal: End 25th year with national championship

A national championship at any level, in any sport, is a coveted honor. To win a national championship, several aspects of a game must fall into place. Coached by Joe Carenza Jr., the 1985 WU soccer team is hoping for one of those "magical" seasons.

"We have the ingredients, but now we have to make the recipe and hope the finished product is a good one," said Carenza. "Every year we set our goals high to help us grow. Through setting these objectives, we have nothing to lose."

"We want to be a contender and, barring any mishaps, we should be. The playoff experience gained by the team last year will help tremendously. But first, we need to have the outstanding regular season in order to qualify for the playoffs."

On paper, the 1985 WU soccer team has the ingredients of a contender. Ten starters and 16 lettermen returned from last year's 15-4-2 team, which advanced to the NCAA Division III Great Lakes Region championship. In that game, the Bears fell to eventual Division III champion Wheaton College, 2-1.

Topping the list of returnees is junior forward George Chopin, a

1984 National Soccer Coaches Association of America (NSCAA) All-American. A Webster Groves High School graduate, Chopin scored 23 goals and 11 assists last year and scored in 14 straight games. He also was named to the NSCAA All-Midwest team.

Joining Chopin on the young forward line is sophomore Dennis Northcott, CBC High School. A nine-goal scorer in 1984, Northcott was the Bears' second leading point-getter on the team.

Dave Ritter, a 6-1 sophomore from McCluer North High School, is the leading candidate to fill the vacant striker position.

At the midfield positions, freshmen Tom Hundelt, a 1984 Parade All-American from DeSmet High School, and Terry Pexton, Ft. Collins, Colo., have a strong chance to earn starting spots alongside sophomore Zack Edmonds, Tipp City, Ohio. To make room for the two freshmen, Carenza has moved senior John Brill, Columbia, Md., an All-Midwest midfielder in 1984, to the stopperback position.

Carenza will have several players from which to choose to form his

backfield. A few of the top returnees are: junior Paul Kluba, Vianney High School; junior Dave Sheikh, Granite City, Ill.; and senior Dave Stranquist, Livonia, Mich. Only one defender, senior Tom Ogorzalek, North Brunswick, N.J., a 1984 NSCAA All-Midwest honorable mention player, started all 21 games.

One other important returnee, senior John Konsek, Neenah, Wis., is

the Bears' returning goalkeeper for '85. Last season, Konsek started all 21 games and posted a 0.95 goals against average with 8.83 shutouts. He was an All-Midwest first team selection in 1984.

This season will mark the 25th year of soccer at WU, and the Bears would like nothing more than to celebrate their silver anniversary with a championship season.

1985 SOCCER SCHEDULE

CALENDAR

Sept. 5-14

LECTURES

Thursday, Sept. 5

Noon. The Left Forum, "Dominant Themes in Current Latin American Literature," Richard Hazelton, WU prof. emeritus of English. Lambert Lounge, Mallinckrodt Center. A follow-up discussion will be held Thursday, Sept. 12, in the Carson Room in Mallinckrodt.

4 p.m. Dept. of Chemistry Seminar, "Quantum Nonlinear Dynamics and Its Applications to Atomic and Molecular Spectroscopy," Howard S. Taylor, prof. of chemistry, U of Southern California. 311 McMillen.

4:15 p.m. School of Fine Arts Slide Lecture with Lia Cook, fiber and paper artist, discussing her work. Steinberg Aud.

Friday, Sept. 6

4 p.m. Dept. of Chemistry Seminar, "Kinetic Isotope Effects as a Probe for Variable Transition States," Takashi Ando, prof. of chemistry, Shiga U. of Medical Science, Shiga, Japan. 311 McMillen.

Sunday, Sept. 8

11:30 a.m. Hillel Foundation and Residential Life Center Lecture and Slide Show, "Jewish Settlers and the American West," Kenneth Libo, co-author of *We Lived There Too*. St. Louis Gateway Arch. Buses will leave at 10:30 a.m. from Wohl Center. Free.

Monday, Sept. 9

2 p.m. Hennings Lecture, "South Africa: Time Has Run Out," with Congressman Howard Wolpe, chairman, House Subcommittee on Africa. Graham Chapel.

4 p.m. Biology Dept. Seminar, "Developmental Regulation of Maize Genes Encoding Photosynthetic Proteins," William Taylor, of genetics dept., U. of Calif., Berkeley. 322 Re-stock.

Wednesday, Sept. 11

11 a.m. Assembly Series Lecture with John Ashbery, award-winning poet. Graham Chapel.

4 p.m. Dept. of Physics Colloquium, "The Physics of Solids at High Pressures," James S. Schilling, Ruhr Universitat, Bochum, West Germany. 204 Crow.

MUSIC

Thursday, Sept. 5

4-6 p.m. Auditions for WU University Choir conducted by Orland Johnson, director. Blewett B, B-8.

Sunday, Sept. 8

1-3:30 p.m. Dept. of Music Auditions for WU Jazz Band, directed by Kim Portnoy. Tietjens Hall.

EXHIBITIONS

"Howard Nemerov: Remembering the Way." Olin Library Special Collections, level 5. 8:30 a.m.-5 p.m. weekdays. Through Sept. 27.

"A Visual Dedication to Azania (South Africa)," an exhibition of works of Nelson Boston, Phillip Hampton, Cavin Jones, Lamerol A. Gatewood and James E. Tatum. Sept. 8-29. Bixby Gallery, Bixby Hall. 10 a.m.-4 p.m. weekdays; 1-5 p.m. weekends.

"New Faculty Show," featuring painter Dawn Marie Guernsey and sculptor Eric Nordgulen. Sept. 8-29. Bixby Gallery, Bixby Hall. 10 a.m.-4 p.m. weekdays; 1-5 p.m. weekends.

"The Prints of Barnett Newman." Through Oct. 13. Gallery of Art, lower gallery. 10 a.m.-5 p.m. weekdays; 1-5 p.m. weekends. For more info., call 889-4523.

Lamerol Gatewood's "Everybody Is a Different Color," will be exhibited in "A Visual Dedication to Azania (South Africa), Sept. 8-29 at Bixby Gallery.

A visual dedication to South Africa opens Bixby's season

"A Visual Dedication to Azania (South Africa)" and the New Faculty Show will open the fall season of exhibits at Bixby Gallery in Bixby Hall. The opening reception for both shows will be from 3-5 p.m. Sunday, Sept. 8. The shows close Sept. 29.

Azania is a modern coinage used by black nationalists to refer to South Africa. The Azania exhibit features five black artists, including Lamerol Gatewood, a St. Louis-based painter and curator of the show; Nelson Boston, a metal and concrete sculptor from St. Louis; Phillip Hampton, an artist of various media

from Edwardsville, Ill.; Cavin Jones, an alumnus of the WU School of Fine Arts and a painter from Philadelphia, Pa.; and James Tatum, a ceramist from Jefferson City, Mo. Each artist will exhibit three works.

Gatewood and Jones decided to organize the show in fall 1984. They were inspired by a painting called "Sharpeville" by Oliver Jackson, a native St. Louisan now living on the West Coast. The painting, which was on exhibit at the time at Webster University's Loretto-Hilton Gallery, is an abstract reflection of the 1960 killing of 69 black protestors by

police in Sharpeville, South Africa.

The 15 large-scale works in the show will range in style from abstract to expressionist.

The New Faculty Show will feature the two new full-time faculty members in the School of Fine Arts, painter Dawn Marie Guernsey and sculptor Eric Nordgulen, and several new part-time faculty members. A variety of media will be represented.

Bixby Gallery hours are 10 a.m. to 4 p.m. weekdays and 1 to 5 p.m. weekends. For more information, call Gallery Director Libby Reuter at 889-6597.

FILMS

Thursday, Sept. 5

7 and 8:45 p.m. WU Filmboard Series, "Shoot the Piano Player." \$2. Brown Hall.

Monday, Sept. 9

7 and 9 p.m. WU Filmboard Series, "Sing in the Rain." \$2. Brown Hall. (Also Tues., Sept. 10, same times, Brown.)

Wednesday, Sept. 11

7 and 9:15 p.m. WU Filmboard Series, "Fahrenheit 451." \$2. Brown Hall. (Also Thurs., Sept. 12, same times, Brown.)

Friday, Sept. 13

7 and 9:30 p.m. WU Filmboard Series, "Starman." \$2. Brown Hall. (Also Sat., Sept. 14, same times, and Sun., Sept. 15, at 7 p.m., Brown.)

Midnight. WU Filmboard Series, "Monty Python's Life of Brian." \$2. Brown Hall. (Also Sat., Sept. 14, same time, and Sun., Sept. 15, at 9:30 p.m.)

SPORTS

Saturday, Sept. 14

2 p.m. Volleyball, WU vs. Maryville College. Field House.

7 p.m. Football, WU vs. University of Chicago. Francis Field.

MISCELLANY

Saturday, Sept. 7

9 a.m.-noon. University College Workshop, "Strategies for Academic Success," Mary Seager, chair, dept. of reading, St. Louis Community College/Florissant Valley. (Also Sat., Sept. 14, same time.) \$30 registration fee. To register and to get location, call 889-6701.

10 a.m.-noon. University College Fiction Workshop taught by Barbara Eldridge, member of WU Writer's Program. Course to continue for eight Saturdays through Oct. 26. \$110 registration fee. To register and to get location, call 889-6701.

10 a.m.-noon. Personal Computing Education Center Short Course, "Using Interactive Computing with Music," Karen Sanders, WU computer specialist. Free to WU community. 458 Louderman.

1-3 p.m. University College Poetry Workshop taught by Brian Cochran, member of WU Writer's Program. Course to continue for eight Saturdays through Oct. 26. \$110 registration fee. To register and to get location, call 889-6701.

Monday, Sept. 9

9-11 a.m. Personal Computing Education Center Short Course, "130 Using Microcomputers," Karen Sanders, WU computer specialist. (Also Sept. 10-13, same time.) Free to WU students, faculty and staff. To register, call PCEC at 889-5813.

Noon-1 p.m. Personal Computing Education Center Short Course, "201 Using JCL," Sara Johnson, teacher. (Also Sept. 10-13, same time.) Free to WU community. To register, call PCEC at 889-5813.

Tuesday, Sept. 10

6:30-9 p.m. University College Short Course, "Power Reading," Elissa Cahn, WU Student Educational Services. Course to continue for six Tuesdays through Oct. 15. \$110 registration fee. To register and to get location, call 889-6701.

Thursday, Sept. 12

8 a.m. The Division of Radiation Oncology at Mallinckrodt Institute of Radiology Symposium on the use of hyperthermia in cancer treatment. Scarpellino Aud. (Also Fri., Sept. 13, and Sat., Sept. 14, Scarpellino.) For more info., call Bahman Emani, symposium chairman, at 362-3470.

Calendar Deadline

The deadline to submit items for the Sept. 26-Oct. 5 calendar of the *Washington University Record* is Sept. 12. Items must be typed and state time, date, place, nature of event, sponsor and admission cost. Incomplete items will not be printed. If available, include speaker's name and identification and the title of the event; also include your name and telephone number. Address items to King McElroy, calendar editor, Box 1142.
